

AMANSAG Hasnae

Cybersecurity Engineer — Cloud, DevSecOps & SIEM

+212 (0) 694 234 813 | amansag.hasnae@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Curious and innovation-driven, I enjoy experimenting with cybersecurity technologies and developing projects such as self-healing honeypots on AWS or cloud-native SIEM pipelines with automated incident response.

Seeking opportunities that allow me to design, deploy, and strengthen secure cloud infrastructures while contributing to the continuous improvement of information systems security.

EDUCATION

National School of Applied Sciences - Marrakech

2021 – 2026

Cyber Defense & Embedded Telecommunications Systems Engineering

High School Groupe Scolaire la Résidence

2018 – 2021

Baccalaureate in Mathematical Sciences

EXPERIENCE

•Cybersecurity Intern – Atlas Cloud Services

March – August 2026

Project: Design and Implementation of a Wazuh SIEM for Log Centralization and Analysis

- Designed and deployed an AI-enhanced **Wazuh SIEM** platform to centralize and correlate **EXGARDE** physical access control logs.
- Developed custom detection rules and a real-time **UEBA** engine based on **Isolation Forest** for behavioral anomaly detection.
- Implemented **SQL Server** high availability via transactional replication and integrated real-time dashboards with automated email alerting.
- *Tools: Wazuh, Python.*

•Cybersecurity Intern – Atlas Cloud Services

Jul. – Aug. 2025

Project: Implementation of a Data Loss Prevention (DLP) Solution

- Deployed and containerized **OpenDLP** with AI-based data classification and automation to optimize sensitive data detection and protection.
- *Tools: OpenDLP, Docker, Python, Selenium.*

PROJECTS

See more details and projects on my portfolio

Cloud-Native Microservices Platform for Sporting Events

Worked in a team of 6 on a microservices platform deployed on Kubernetes (Helm, GitOps/ArgoCD), with an end-to-end Jenkins DevSecOps pipeline (build → tests → security scan → deployment) and centralized observability.

Tools: Docker, Kubernetes, Helm, Jenkins, ArgoCD, Terraform, Ansible, Prometheus, Grafana, Loki, SonarQube, Trivy, OWASP ZAP, GitLeaks.

Automation Platform for a Secure Kubernetes Infrastructure

Designed and automated a production-ready Kubernetes infrastructure by applying GitOps and Infrastructure as Code (IaC) principles. Automated cluster provisioning with Terraform, Ansible, and Helm, continuous deployment with ArgoCD, runtime threat detection with Falco, and centralized observability powered by Prometheus, Grafana, and Loki.

Tools: Kubernetes, Terraform, Ansible, Helm, ArgoCD, Falco, Prometheus, Grafana, Loki, GitHub.

Cloud-Native SIEM Pipeline with Threat Intelligence on AWS

Automated event-driven pipeline chaining GuardDuty → EventBridge → Lambda → S3 → SQS to TheHive, with automatic alert triage by severity threshold, enrichment via Cortex/MISP, and a self-healing systemd service.

Tools: AWS (GuardDuty, EventBridge, Lambda, S3, SQS, EC2), TheHive, Cortex, MISP, Kibana, Docker Compose, Python.

VMware ESXi 7.0 & vCenter Deployment and Configuration

Two-host ESXi cluster centrally managed via vCenter Server Appliance (VCSA), with associated network services (FTP, Web, DNS, key-based SSH) deployed on the virtualized environment.

Tools: VMware ESXi 7.0, VCSA, vSphere Client, Linux.

TECHNICAL SKILLS

Cloud & Virtualization: AWS, OpenStack, VMware ESXi/vCenter, Proxmox

Containers & Orchestration: Docker/Docker Compose, Kubernetes, Helm

IaC & CaC: Terraform, Ansible, Packer

DevOps & GitOps: Jenkins, ArgoCD, Git, SonarQube, Trivy, OWASP DC, GitLeaks, Falco

Observability: Prometheus, Grafana, Loki, Kibana/ElasticSearch

SIEM / Threat Intel: Wazuh, Splunk, TheHive, Cortex, MISP

Scripting & Programming Languages: Python (boto3), Bash, Java JEE

Systems & Network Administration: Linux, Windows, Active Directory, Networking

Compliance & Governance: PCA/PRA, ISO 27001, EBIOS RM

CERTIFICATES

- **ISC2 CC – Candidate** (Certified in Cybersecurity)
- **SOC Level 1 – TryHackMe Learning Path**
- **Hybrid Cloud Fundamentals – Nutanix Certified**

LANGUAGES

- **English:** Advanced
- **French:** Advanced
- **Standard Arabic:** Advanced

EXTRACURRICULAR ACTIVITIES

- **JLM – Jeunes Leaders Marocains:** Member of the Projects, Social Actions, and Design unit.
- **SelfDev:** Member of the Communication & Design unit.
- **GCDSTE Secure Tech ENSA Marrakech:** Head of the Communication unit, member of the club's Training unit.
